**DAMAGED MECHANICAL SEAL**

**REPAIRED MECHANICAL SEAL**

## TARTEK -MECHANICAL SEALS FOR PUMPS

Tarkkuustekniikka has specialized in mechanical seals for pumps and have long experience of repairing mechanical seals. At Tarkkuustekniikka there are big stock of different type of TARTEK -mechanical seals what are equivalent with original mechanical seal.

TARTEK –mechanical seal supplying system for the ships as follows:

1. Please put damaged mechanical seal to the original box. Please write pump's name and target on the box. Please don't put away used mechanical seal because often it can be repaired like a new one. TARTEK -repairing price is half price of the new one. After checking damaged mechanical seals, we can send the offer of repairing or new equivalent TARTEK –mechanical seals to you if needed.
2. Sometimes mechanical seals are not able to repair, we can offer you equivalent TARTEK -mechanical seal replacing damaged one. Because damaged mechanical seal is at Tarkkuustekniikka, we are able to check some dimensions and TARTEK –mechanical seal fits to the same pump without any changes.
3. Repaired or TARTEK -new mechanical seals will be packed own box with your stock number, pump type and TARTEK -mechanical seal code to help recognizing the mechanical seal type and materials in the future.

With TARTEK –mechanical seal supplying system you will save time and money.
